**WAYS TO
SAVE TIME
IN YOUR
ACCOUNTS
PAYABLE**

AI-enhanced data capture

Save time and reduce errors with AI-enhanced OCR, which accurately recognizes and inputs text in the correct fields for you.

Automated invoice matching

**Automatically compare and match
your invoices against purchase
orders, receipts, or return shipments
to quickly spot discrepancies.**

Efficient approval workflows

Speed up your approvals with automated workflows, ensuring the right people efficiently approve the relevant documents.

Quick document retrieval

Pull up your document history in seconds with a secure digital archive that features indexed and full-text searchable data.

Purchase contract management

Save time with automated suggestions for contract creation. The system detects recurring invoices and lets you efficiently manage them from one place.

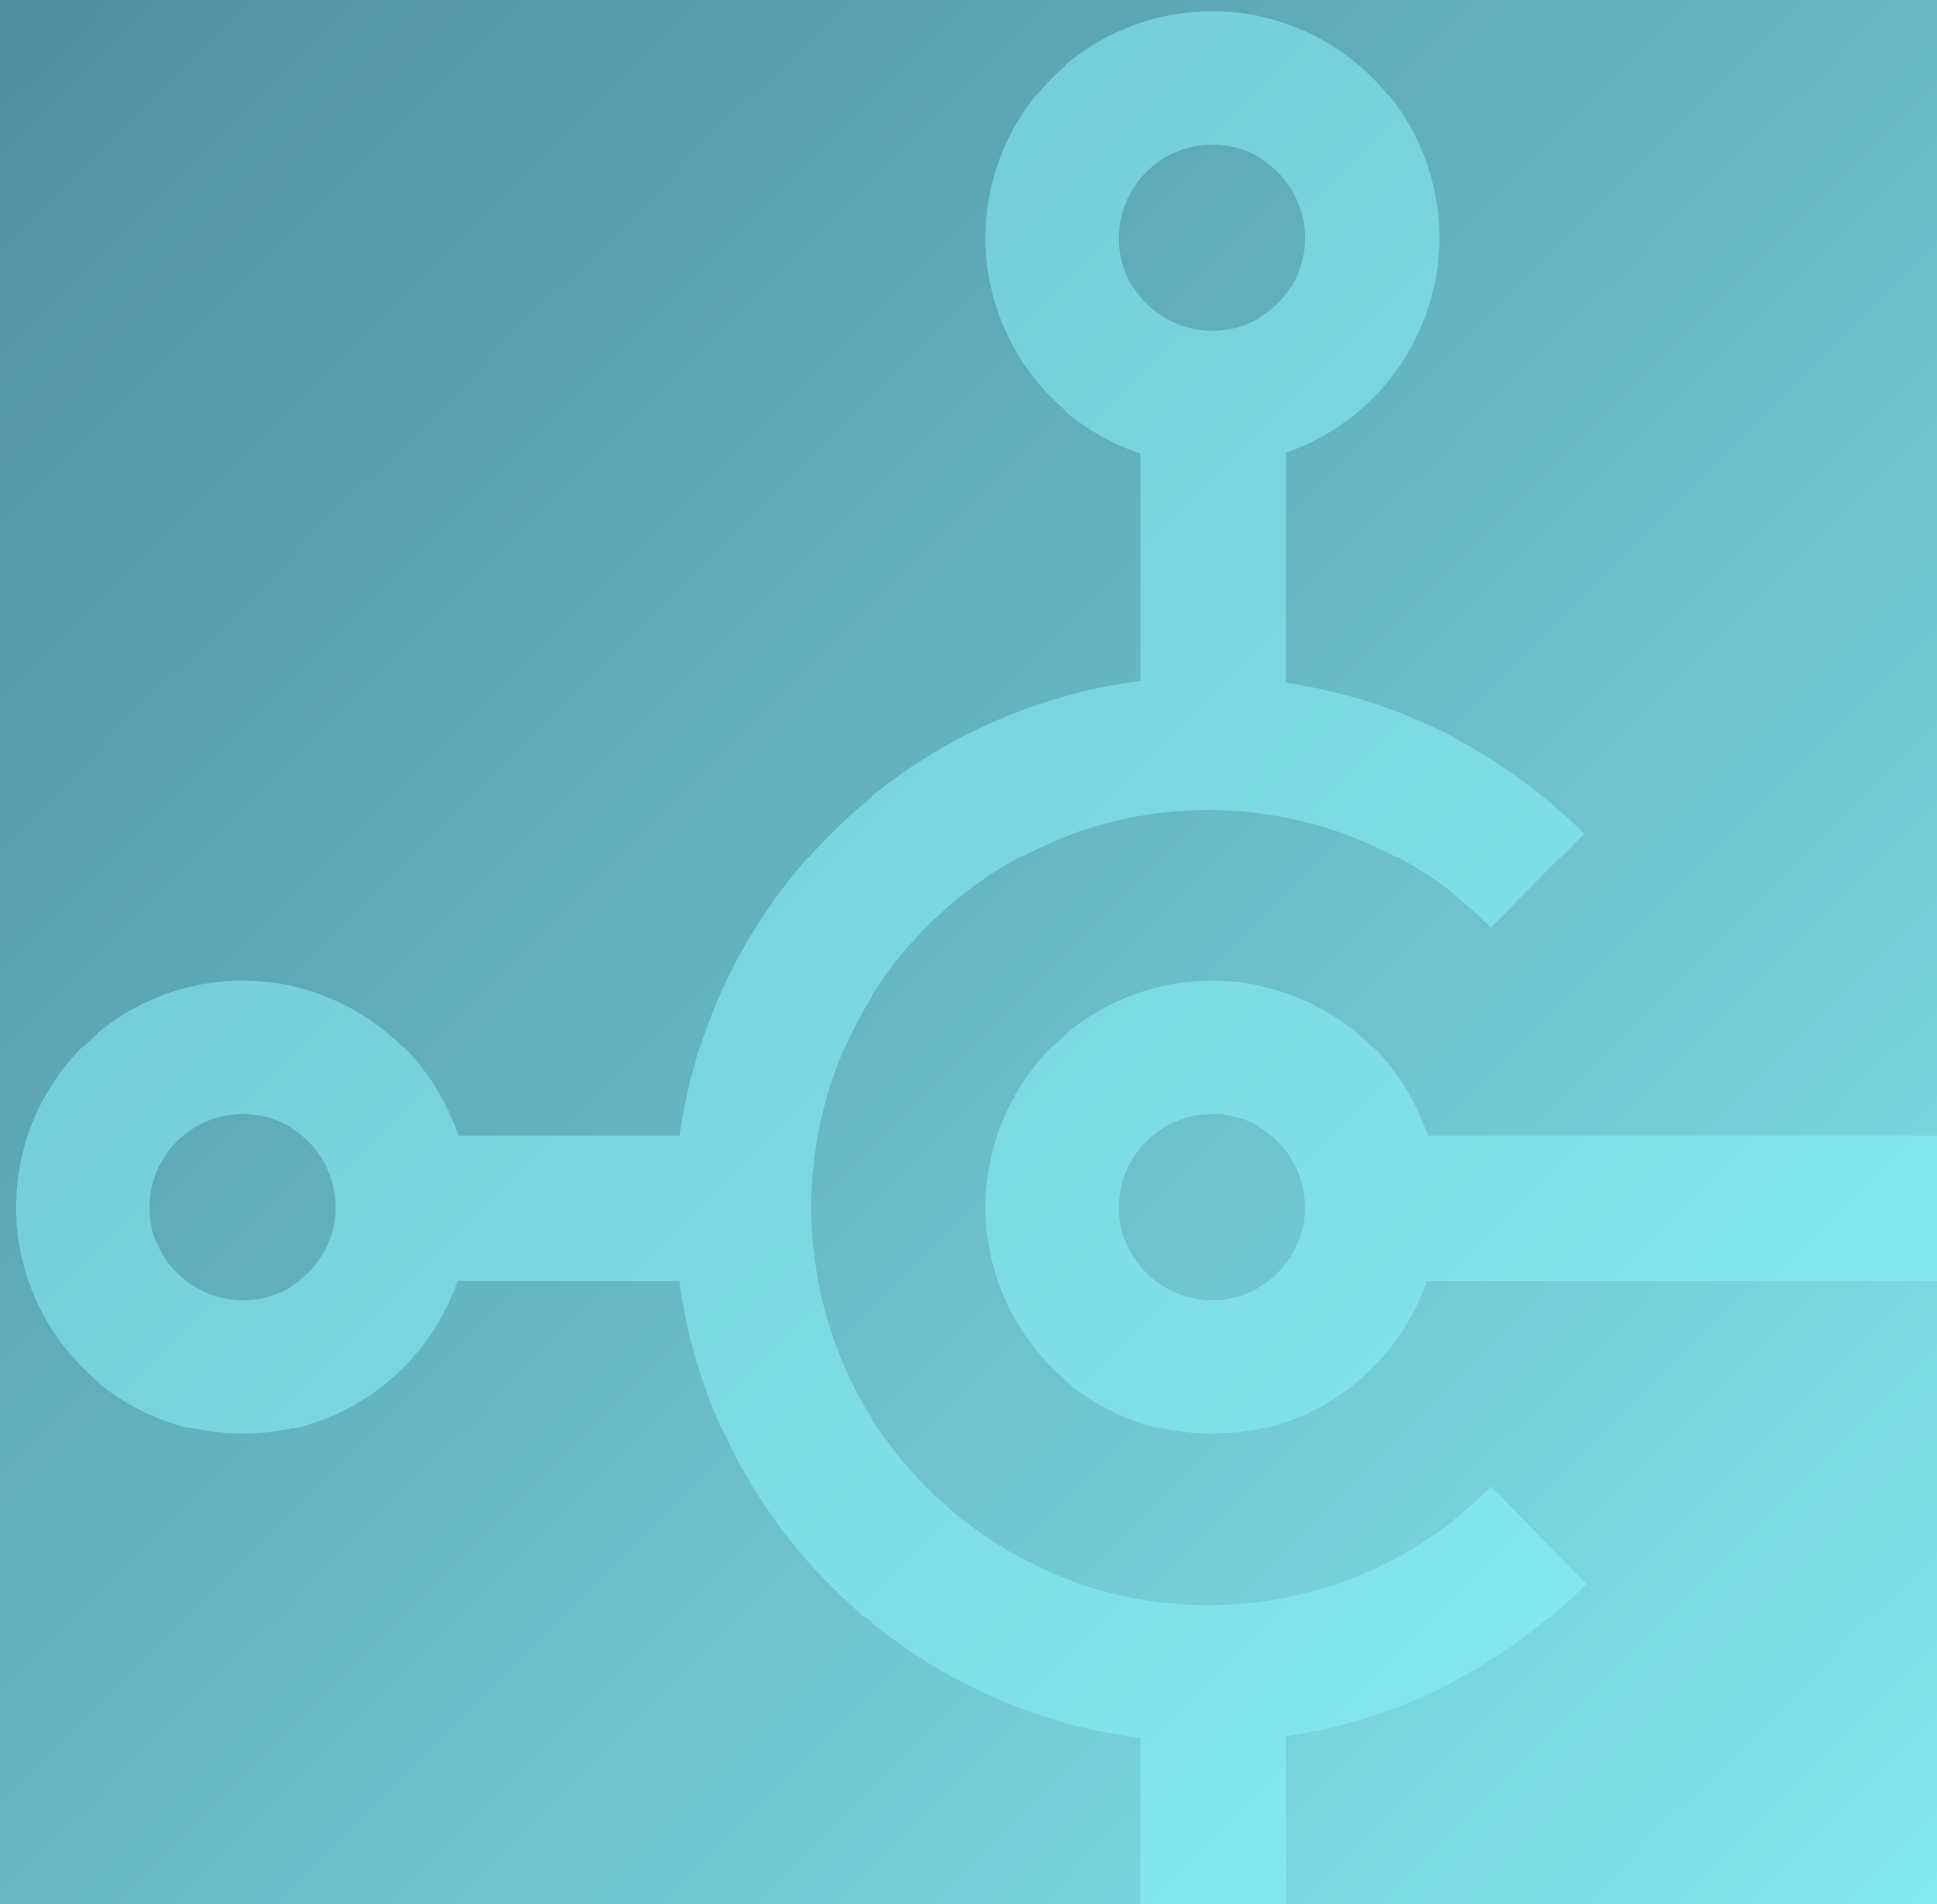

Efficient e-document exchange

Enjoy seamless e-document exchange for speedier processing and communication with your vendors and customers.

BUILT INSIDE Business Central

Enhance efficiency with a solution that's built within your Business Central, eliminating the need to switch between systems during your workflow.
